INTRO

Good evening! I'd like to welcome everyone to The State of Synth! I'm DJ Groot, and I'm Neon Fawkes!
That first track you heard just now was "Golden Age" by Outland Recordings artist The Last Concorde. He's from Barcelona, Spain. The new album "Dream Machine" was just released and is available on all platforms!

Top Story:
A major discovery has been made in Stone Mountain Georgia. A cave that might just hold the secrets to synthwave itself has been discovered by our very own Vosto Vlad and crew. They are currently on the scene and apparently are ready to report some findings.

California artist and contributor to NightrideFM Cyberthing! Is dropping this new tune called "October Massacre"..... the Director's Cut….and we are premiering it here on NFM!

That's our show! Thanks for listening! Many thanks to Nick and Pat from The Motion Epic for joining us tonight! Say hi to Andreas for us!

Remember to check out thestateofsynth.com for past episodes, show notes, track listings, and maybe even buy us a beer. You can also find us in syndication on Neo Radio (http://hitradio.nz/neo/)

We are going to play you out with a premiere! This is from Austrian artist Miles Matrix's new 80s Electro inspired album "La Boum". Bandcamp pre-orders open Nov 3, with the album dropping Nov 17th on Bandcamp, and Dec 3 on streaming platforms. Miles states that when he was young, he had a cassette tape of "breakdance music", and he had no idea what the genres were on that tape. Turns out his love for Electro remained, and this is his humble tribute. This is a track from the new album called "Electrified" by Miles Matrix.

Thanks to Nick and Pat from The Motion Epic for being with us!!!!! From all of us at NFM, goodnight!
