INTRO

Good evening! I'd like to welcome everyone to The State of Synth! I'm DJ Groot, and I'm Neon Fawkes. Welcome back to the show! Tonight, our guest is Starc△dian! We'll be enjoying select tracks from his new album Radio Galaxy.

Let's kick off with our first song of the night. This is the new Wice remix of FixT artist Cassetter's track "Till The End" featuring Maxthor! Thanks and have a good night!

Top Story: Ollie Wride Live At Lafayette paving the way once again for live performances

With Covid constantly creeping around the corner, it's hard to say when live synthwave shows will ever go back to normal. Big events can be a huge risk both financially and physically. In these days of uncertainty, it's good to know there are performers out there still willing to bring it all the stage. Ollie Wride just recently performed to a sold out crowd at Lafayette, London. How did it go? Fortunately, our very own Reinhold is here to give you his review of how the evening went.
