Hello and welcome to another episode of The State of FiXT! I'm your host Groot (and I'm Neon Fawkes). Tonight, is our very special FiXTmas episode. As usual, we'll be bringing you some FiXTy news, releases, and events, and we are privileged to be joined by FiXT recording artist Signal Void, from London (Ontario, Canada).

Top Story (Dennis) (a1)

FiXT Neon takes over The 80's Guy.

Yes The 80's guy who has been recently dealing with YouTube demonetizing issues has announced on social media that FiXT stepped in to offer financial assistance for the struggling channel.

For more on these developments....let's connect with our intrepid roving reporter, Iron Skullet!

VOSTO CLIP

"Salut mon ami".....hahahahaha. Oh Vosto...wait...what? We are part of FiXT now?
Oh...ok....not yet.....

On that note, let's kick off the music tonight with this xmas tune from Berlin artists "Siamese Youth". This is "Last Christmas" with a very special message going out to all our listeners, here on FiXT...er.....NightrideFM

Special Guests Discussion with Signal Void

Let's welcome our special guest tonight. All the way from London (no, not that London, the other London in Canada, near Toronto), this is Signal Void!

- How did you get into the synthwave genre?
- How long have you been producing?
- What type are some of the things that inspire your sound?

Let's hear a track from Mr. Void right now! From the fresh debut album "This Liminal Reality", this is "Ultra Violet" by Signal Void, here on FiXT.....er.....NightrideFM!

Signal Void - Ultra Violet

- Previously NIMBVS, Why have you decided to move forward with the new identity
- Okay so where did the name Signal Void come from?
- What's next? Touring? Videos?

NEON Fawkes song of the week

This week, I want to play a song from from California band Nightmares and Neon. It was released late November and features their signature vocals and synth styles. This is "Days Like Today" by Nightmares and Neon, here on FiXT...er.....Nightride.FM!

Nightmares and Neon - Days Like Today

FiXT Forecast (a2)

The weather here in Iowa, home of the FiXT empire, is a cool 20 degrees Fahrenheit. Things will heat up over the next few days, not just here, but around the globe, as Megan McDuffee keeps posting countdown GIFs for her "Barely Covered" EP that drops Friday.

NEON Fawkes Feel Good Story Of The Week (b1)

My feel good story is about all the lovely Spotify "year end" posts by artists and fans alike. While Spotty may not pay for a coffee, seeing the number of countries and hours listened for these artists is inspiring.

With that, let's take a walk in the woods with French artist A Walk In the Woods (AWITW). He just dropped his latest album "Colors". This song is called "More Love", and you are hearing here on FiXT...er.....NightrideFM

AWITW - More Love

This Just In (b3)

Oh, man, this is a big announcement... The trailers for “Wonder Woman 1984” and “Ghostbusters: Afterlife” have with dropped this week. Both movies are produced by FiXT Movie Studios and

Jules: uh...Dennis.....

Dennis: and...uh...yeah?

Jules: I don't think FiXT has anything to do with those movies

Dennis: Wait...what? Are you sure?

Jules: Well...I mean...I can't be sure of anything anymore...but it's most likely they are from Warner Bros Pictures and Sony Pictures respectively...

Dennis: Oh....but those two companies are owned by FiXT right?

Jules: Um....I don't think so....I could be wrong.....

Dennis: Alright then, let's just move on to our Album Releases
