Dennis! Giddyup! It's time to play a track from our favourite space cowboy from Montreal Lazy Laser! He just dropped his magnum opus "The Neon Tumbleweed" this past Friday, and good lord.... Ride 'em cowboy! This release continues the adventures of our protagonist, the space cowboy, as he deals with a corrupt mayor in a one cyberhorse town. Picture a blend of Firefly, Cowboy Bebop, and Bladerunner. A glorious spaghetti western in space. I highly recommend folks check out the story when clicking the "lyrics" button for each track on Bandcamp. Also, on Lazy's Youtube, there are videos animated by Lunammee for each track. There was so much to choose from on this album, I had to let my MK IV space horse pick a track instead. From the album "The Neon Tumbleweed", this is Lazer Laser with "A Score To Settle", here on NFM.
