Seattle artist Wolftron has been hard a work dropping music, and I almost missed this album with all the shenanigans that have been going on lately. I'm so glad I managed to check out this album. From the first track to the last, this album goes hard. Wolftron just gets better and better each full moon that passes. Today we go hard. From the album "Beauty In the Darkness", this is Wolftron with "Awaken", here on NFM!

Priviet! Russian artist Starfounder has released a new album with his signature pounding atmospheric beats, and since we are going hard tonight, it's only fitting we play the titular track. The album is dedicated to 10 years of Starfounder, and believe it or not, my very first synthwave vinyl was the Starfounder album "Vengeance" that I won on Groupees. This is "Ground Zero" by Starfounder, here on NFM!

Here at TSOS, we are in a spacey mood, and on a "Star" kick, let's play the latest single from Starfarer, who hails from the furthest reaches of the galaxy, a place called "Denver". As always, expect some deep pounding beats that are just a glitch in frequency. We'll be seeing this galactic traveller at Neo next Saturday! This is Starfarer with "Just A Glitch", here on NFM!
