Let's kick things off with some awesome music. Swedish artist Waveshaper has released a brand new album! Titled "Alternate Reality", it's full of his incredible signature sounds. We are actively trying to get him on the show by shamelessly leaning on Robert Parker. This is the titular track "Alternate Reality" from Waveshaper's new album, here on NFM.

Italian artist Simulakrum Lab (also an avid cinephile and prop collector) has teamed up with our favourite Finn Turbo Knight for a new track. Get this. Simulakrum (Paolo) actually provided a prop for the new “The Thing Expanded” documentary from Creator VC! This guy has met and collected some of the best cinema artists and memorabilia, and he also is an incredible music producer. He’s collaborated with talent like DJP and others, and you always know you will get synthwave goodness from this artist. This is Simulakrum Lab and Turbo Knight with “Echoes of Memories”, here on NFM!

Originally Scottish, and now Canadian, NRW’s own Michael Oakley is back with a new album which is available for pre-order (on all sorts of physical media). The album is called “Prologue” and you can get the first track now. Made in conjunction with the talents of Ollie Wride and Dana Jean Phoenix, among others, the new sounds take us into the ‘90s decade! This is Michael Oakley with “World Of Promises”, here on NFM.

Twin Cities (formerly LA) artist Droid Bishop’s new album has released! We here at NFM were lucky to seem him blow everyone’s minds at Neotropolis a couple of weekends ago. Somehow I’m my drunk state, I acquired a Bish guitar pick. This is the titular track, “Frontiers”, here on NFM.

We recently scored a written and hilarious interview with UK artist LukHash, and he's still cranking out tunes! He released this one while we were away on another planet, and we figured we HAVE to play it. This track is less chip and more synth. This is LukHash with "Timeless", here on NFM.

We are going to play you out with a new track from FiXT's own Scandroid! This gentleman has been hard at work elevating the FiXT label with diverse talent, but he's never forgotten about us lowly synthwave fans. This is "Lost In the Stars" by Scandroid!

From all of us here at NFM, have a great night!
